Experience

Software Developer Intern

ITDevHub Technologies, Pune (June–July 2025)

- Contributed to basic backend tasks using Node.js, including working with APIs.
- Gained hands-on experience in frontend development, debugging, and collaborative development workflows.

Projects

Job Aggregator Platform

- Aggregated job listings from multiple sources using FastAPI and Supabase.
- Implemented AI-powered resume matching and personalized job recommendations using LLMs and RAG.

Decentralized Health Data Storage

- Developed secure patient data storage using IPFS.
- Integrated Aadhaar verification and blockchain hash logging for integrity and access control.

Adaptive Financial Market Pattern Prediction Model

- Developed a data-driven signal prototype by training historical financial market data using strategy-based pattern analysis.
- Implemented retest strategy logic, model training, and backtesting for signal evaluation.
